Although our proven staffing techniques and technology acumen are a big part of our success, we know that the core of our success is built on relationships. The human process of bringing together our clients, candidates, and colleagues to do extraordinary things is what fuels and inspires us.

ConsultNet's dedicated staffing and project management teams address the challenges faced by global defense, space, security, and energy agencies. Working as a primary vendor or with system integrators, OEMs and other technology partners, ConsultNet delivers technologists and tailored workforce management solutions. As a Cleared Facility, ConsultNet can also provide security cleared consultants for your sensitive projects.

ConsultNet Meets DOE Requirements

- **We specialize in IT, Engineering & other technical fields**
- **We are experienced working with federal/local governments and system integrators**
- **As a Cleared Facility, ConsultNet can provide staff with security clearances**
- **ConsultNet is classified as Small Business Enterprise (SBE)**

First. Fast. Flawless.SM

Government and public sector staffing demands call for a thorough, qualitative understanding of relevant procurement processes and legislation. Our solid track record of delivering desired, timely and cost-efficient results has allowed us to create successful partnerships as well as strategic alliances with various Federal, State and Local government agencies.

Our staffing expertise in the Government Sector is based on our core philosophy of building strong relationships with both clients and candidates. To learn more about ConsultNet's approach to Government Sector staffing please contact us at gov@consultnet.com.
