

As companies started to embrace the .NET software framework, we were told by our clients, that they preferred the .NET framework because of its tremendous features. We decided then and there to commit to becoming the go-to staffing organization for all things .NET. We place technologists in all phases of .NET development including:

- **Creating B2B and B2C portals**
- **Web application development**
- **Enhancement of existing application in .NET**
- **E-commerce solutions**
- **Customization of existing application in .NET**
- **Portal development**

When your business demands require world-class .NET technologists you have to call
